

# How to Uninstall Avery Software Frequently Asked Questions

## **How to uninstall Avery Software (Windows XP)**

Select the Start button on your computer. Choose Settings > Control Panel > Add or Remove Programs.

Highlight the Avery Software you would like to remove and then click the Remove button. Follow the prompts to complete the removal of the Avery software from your computer.

## **How to uninstall Avery Software (Windows Vista/7)**

Select the Windows button on your computer. Choose Control Panel > Programs and Features. Or in the Control Panel window, choose Uninstall a Program under the Programs title.

Highlight the Avery Software you would like to remove and then click Uninstall/Change. Follow the prompts to complete the removal of the Avery software from your computer.

## **How to Uninstall Avery Software (Mac)**

Use Finder to locate the Applications folder. While pressing the Control key, click on the program you want to uninstall. Select Move to Trash to remove the program. You may also want to use Search to find other preference files associated with the program and move those to Trash as well.

If the program is also in your dock, hold down the Control key, click that item and select Remove from Dock.
